## REPUBLICANS WILL CONTROL

Have Captured Board of  
Supervisors.

Royalton Elects a Re-  
publican.

The First Time in 27  
Years.

The next board of supervisors will be controlled by the republicans, after a democratic reign of four years. Last year the board stood 17 democrats and 15 republicans, and this year it has been reversed, there being 17 republicans and 15 democrats.

The republicans gained three and lost one supervisor. The loss was in the village of Buchanan where Joseph Richards, democrat, defeated Benjamin Harper, republican. The gains were made in New Buffalo, St. Joseph township and Royalton township. In the latter township a republican supervisor was elected for the first time in 27 years. Samuel Miners is the man elected.

The republicans will elect the chairman of the board and it will undoubtedly be John Seel, supervisor from the third ward in this city.

The republicans are rejoicing as it means much to have control of the board in a presidential year. Had the democrats won they could have redistricted the county so that the democrats could elect one representative in the legislature to vote for the next United States senator.

The board will consist of the following members.

Republicans.

## THE RESULT IN ST. JOSEPH

JUDGE O'HARA BADLY DEFEAT-  
ED FOR MAYOR.

Mayor—N. C. Rice, r.  
Clerk—Leland D. Townsend, r.  
Treasurer—Amil Herring, r.  
Justice of Peace—J. C. St. Clair, r.

The result of the election in St. Joseph was a surprise. Democrats confidently expected that Judge O'Hara, the democratic candidate for mayor, would be elected. Instead Nelson C. Rice, republican, was elected by a majority of 114.

Matthew Weber, who had been city clerk for four years, was defeated by Leland D. Townsend, who has been deputy county clerk for two years. Townsend's majority was 131.

Herring, republican, was elected treasurer, defeating Dahkle, democrat, by a majority of 59.

John C. St. Clair, republican, was elected justice of the peace, defeating A. H. Morton by a majority of 13.

### Movement in the House Looking to a Cut in War Tax.

#### RESOLUTION ASKING FOR STATISTICS

Mr. Payne Says Its Object Is to Reduce Taxation if Information Shows That Such Action Is Advisable.

Washington, April 3.—A possible reduction of the war taxes was foreshadowed in a resolution adopted by the house Monday calling upon the secretary of the treasury for information as to the probable surplus existing revenue laws would create during this and the coming fiscal year. The resolution was presented by Mr. Payne, the floor leader of the majority.

#### Mr. Payne's Statement.

Washington, April 3.—The resolution of Chairman Payne, of the ways and means committee, relative to the treasury surplus and the probable income and expenses of the government, is a mere preliminary to the determination by the ways and means committee whether it will be safe to recommend any reduction in the present sources of income. After the adoption of the resolution by the house, Mr. Payne authorized the following statement:

"The object of the resolution is to get information from the secretary of the

treasury as to the probable surplus of the government. The final vote on the bill will be taken late this afternoon. It is arranged for four o'clock, but an effort will be made to extend the time for debate beyond that hour.

#### Expect a Majority of Seven.

Washington, April 3.—Members of the senate committee on Porto Rico made a poll of the senate on the Porto Rican bill. They estimate a majority of seven for the bill, believing that it will receive 47 votes.

#### The Public Debt.

Washington, April 3.—The monthly statement of the public debt shows that at the close of business March 31, 1900, the debt, less cash in the treasury, amounted to \$1,112,256,358, a decrease for the month of \$6,629,701.

#### Davis Resigns.

Washington, April 3.—The formal resignation of Webster Davis was sent to the white house Monday night through his private secretary. At the white house no statement was obtainable concerning the resignation other than the fact that it had been received and the officials declined to say whether it would be accepted.

#### OFF FOR IRELAND.

Queen Victoria Leaves Windsor Castle for Her Visit to the Emerald Isle.

London, April 3.—Queen Victoria left Windsor at 9:30 last evening en route for Ireland. Her majesty is accompanied by Princess Christian and Prin-

treasury that will enable the ways and means committee to determine whether it is safe to attempt a reduction of the revenue, and in case that is decided affirmatively, then along what lines this reduction should be made. It is true there is a surplus of \$1,000,000 for the nine months ending Saturday last, and \$10,000,000 for the month of March. Whether this surplus is to be increased or not for the balance of the fiscal year is one of the questions on which we desire information. Should all of the \$50,000,000 of bonds which can be refunded under the refunding act be presented, some \$26,000,000 would be absorbed in this operation. It will require \$20,000,000 to refund the bonds already deposited with the secretary of the treasury under the act recently passed. What we desire to know is the effect of this upon the surplus, and the probable expenses of the next fiscal year in order to safely determine upon a reduction of the revenue."

Mr. Payne was asked if he considered it probable that legislation for this reduction would be presented at this session of congress. "I cannot say as to that until we get the information. If any action is taken sufficient reduction can be made under the war revenue act, which was an emergency act passed in 1898. I am opposed to interfering in any way with the Dingley tariff law of 1897."

#### Senate.

Washington, April 3.—Advocates and opponents of the Porto Rican tariff and government bill waged vigorous war in the senate Monday for more than seven hours. Long before the senate convened at 11 o'clock the galleries were crowded and so they remained until the senate adjourned. Those who listened to the debate were well repaid. The speeches were good and the running debate unusually bright and lively. During the speech of Senator Spooner (Wis.), particularly, the chamber seemed to scintillate with sparks, as he crossed argumentative by Senator Cullom (rep., Ill.) in a vigorous speech supporting the measure. Then came Senator Depew (rep., N. Y.), a member of the committee which framed the bill, who made an eloquent and forceful defense of the measure. Senator Spooner, who spoke next, was followed by Senator Perkins (rep., Cal.), also a member of the committee on Porto Rico, who presented a strong argument for the bill. The closing speech was delivered by Senator Simon

Henry of Battenberg and is attended by the countess of Antrim, Hon. Harriet Phipps, Sir Arthur Biggs, private secretary to the queen; Sir Fleetwood Edwards, keeper of her majesty's privy purse, and Capt. Ponsonby. The queen had driven out to Frogmore during the afternoon, amid considerable enthusiasm on the part of the townspeople, and her departure from the station was comparatively quiet, although quite a crowd had assembled to cheer the outgoing train.

Not in the history of the Great Western and London & Northwestern railways have greater precautions ever been observed to protect the royal train than those which had been perfected when her majesty started northward Monday night. These officials, who have superintended the transportation of czars, kaisers and the princes of all nations in and out of Windsor, have exerted themselves beyond precedent to insure the safety of the royal train between Windsor and Holyhead.

Dublin, April 3.—All Dublin, and in truth all Ireland, is on the qui vive in anticipation of the queen's coming. Crowds are pouring in from all points and it is estimated that the normal population of Dublin, about 300,000, will by Wednesday have swollen to 1,000,000. Rooms are at a premium. From every town come throngs anxious to share in the gaiety that now promises to be unmarred. From Belfast alone 10,000 are expected. By the exercise of the greatest possible tact the government officials have officially destroyed sectional feeling, and there is no longer any doubt that her majesty will be welcomed with an enthusiasm equal to if not greater than that which was displayed during her recent visit to London.

#### Has Free Delivery.

Carbondale, Ill., April 3.—A complete system of letter-carrier service was inaugurated in this city Monday and four free rural deliveries were also introduced. The rural routes will serve 2,500 people and cover a radius of seven miles from the city. In the city two deliveries will be made daily and one daily in the country.

#### Navigation Opened.

TUESDAY, APRIL 3, 1900

GRAND Rapids has reelected George R. Perry mayor, by an increased majority. Mr. Perry has given the city a good business administration and his veto of an ordinance in the favor of franchise grabbers largely contributed to his success. Benton Harbor people would have liked to see his opponent, ex-Mayor Stuart, elected as Stuart is the law partner of S. W. Barker, formerly of Benton Harbor.

THE defeat of ex-Mayor Brant for the office of mayor this year will doubtless remove him from the list of democrats eligible for the nomination. Two years ago he made a run for the office that simply surprised every one and he was elected. Last year he made a run that no other democrat could have duplicated and was defeated by a small vote. This year he was defeated by a majority of three times that of last year. The fact that every year he has run he has polled a smaller proportion of the votes than at the previous election will probably convince him that his year was in 1898, when he was elected the first democratic mayor of the city by a majority of 127. It is not likely that the democrats will elect another democratic mayor for several years to come. The republican majority of several hundred make it an almost hopeless task to elect a democrat.

They sing everything with expression and taste, and their work is such that they are in demand all over the world. We cheerfully recommend the Imperials." The quartette is accompanied by a famous reader, Prof. W. W. Carnes, of whom a paper at Olathe, Kas., says: "As an elocutionist he has no superior in this country. The professor entertained a crowded house with select readings in the Congregational church last Tuesday evening. The selections were given in a style that has never been surpassed here."

The admission will be 35 cents

LAST night after the ballots were  
counted and the result known, Noll's  
Military band appeared on the street  
and rendered several selections. Four  
young men who are fine singers or-  
ganized a quartette and were singing  
a pretty selection on the corner when  
the night policeman stepped up and  
informed them that if they  
cared to sing they had better get out-  
side the corporation. It has not as yet  
been figured out how the young men  
were making any more disturbance  
than the brass band or the fight which  
was taking place in front of Conkey's  
hall and not an officer in sight.

### Victory at Niles Divided.

Niles, April 3.—Dr. Bonine, re-  
publican, defeated Dr. Baldwin for  
mayor. The republicans elected L. J.  
Morgan, clerk, and two aldermen and  
two supervisors. The democrats elected  
Charles Schmidt treasurer and Theo-  
dore G. Beaver justice of the peace,  
also two aldermen and two supervisors.

M. B. Smith, Bitternoot, Mich., says:  
"DeWitt's Little Early Risers are the  
very best pills I ever used for consti-  
pation, liver and bowel troubles." Geo.  
M. Bell & Co.

### ATTAINING OLD AGE.

The Philosophy of Longevity Is  
Depleted by Prof. Cyrus  
Edison.

Addressing the Hundred Year club  
at New York the other night on "The  
Causes of Natural Death and How to  
Attain an Active and Useful Old Age,"  
Dr. Cyrus Edison said that longevity is  
due to unusual powers of assimilation.  
Dr. Edison spoke of the trades and pro-  
fessions in which statistics had shown  
the fatalities to be earliest. Among  
the most fatal of the trades were those  
of steel polishers and potters. Mer-  
chants came well up in the list for early  
deaths, and it had been shown that the  
mortality among butchers after the age  
of 25 is large. Among physicians also,  
he said, there is a high mortality rate  
much above the average, due to irregu-  
larity of living.

On the other hand, farmers and hun-  
ters, from their open-air life, often at-  
tain to old age.  
"But," he added, "if the intellectual  
parts of the brain of the farmer had  
proper activity and exercise he would  
live longer. Rapid thought leads to  
longevity. Men in the city in this re-  
spect have a distinct advantage over  
the farmer. Not only is a well-balanced  
mind essential to old age, but a well-  
balanced active mind."

From this Dr. Edison deduced that "na-  
ture is a relentless fool killer." Statis-  
tics show, he added, that men of genius  
live a remarkably long life.

There should not be more than eight  
hours' sleep, he said, as too much sleep  
makes the sluggish. Excessive sleep  
results in degeneration from disuse of  
the mental faculties. After 55 years of  
age we never need more than eight  
hours, unless it is to "catch up." The  
cry of doctors ten years ago was to  
build up the body, but building the  
mind is equally, if not more, important.

### Just Like His Father.

Mr. Higgins—Tommy, when you get  
to be the head of a family what will  
you say to your sons?

I will tell them how good I was when I  
was a boy.—Ohio State Journal.

## SOCIETY AND PERSONAL

J. H. Graham is in Chicago today. J. S. Morton is out of the city today on business.  
Mrs. Frank Jordan is very ill at her home on Elm street.  
Miss Lillian Stoner has returned to Ypsilanti after spending her vacation with her mother in Benton Harbor.

The meeting of the Chautauqua alumni held with Mrs. Morley was well attended, it being the annual election of officers. The roll call was one of the prominent features of the afternoon, as a greater part of the quotations were original, which proved conclusively that no one club has a corner on poets. The secretary's report which is always looked forward to with great expectation was bubbling over with racy sayings. The interest in the study of the French language is keen and the half hour given to that lesson is all too short. The election passed off very quietly, as the club were all of one mind. A little opposition would have added spice to the occasion, but all were satisfied. The following officers were elected: President, Mrs. Wallace; vice president, Mrs. Drake; secretary, Mrs. Shauman; treasurer, Mrs. Hendrix. The next meeting will be with Mrs. Hendrix. Program: Roll call, "Men and Women of the Hour," "Porto Rican Tariff," continued, Mrs. Valentine; McMaster's history, Mrs. Hendrix; Emerson's essay, concluded, Mrs. Ward; "The Mecca of the Day, the Opening of the Paris Exposition," Mrs. Drake; piano solo, Miss Cogshall.

The ladies of the Self Culture club met with Mrs. Culison at the Hotel Benton yesterday afternoon at 2 o'clock. Roll call was answered with a saying of an eminent woman. Our hostess closed the doors leading to the rotunda that might not disturb the politicians below, and twenty eager listeners awaited the first number on the program, a piano solo by Mrs. Reed. Miss Palkingham then gave the concluding chapter of the first volume of McCarthy's "History of Our Own Times." She drew such a graphic picture of Disraeli at the time of his maiden speech, of the working of the "Primrose League" and the events of the chapter, that it is safe to say no member ever dare hereafter speak of history as dry or dull. "The Nicaragua Canal" which will be the gift of the United States to the nations of the earth, was given by Mrs. Sherwood, illustrated with map showing its route and states of Central America. The "Lady of the Tiger" was given by Mrs. Shauman in her inimitable manner. Mrs. Platt read two interesting letters from her sister, Miss Meech, who is in the service of the government at Hilo, showing pictures of hospital, specimens of pana cloth, an account of the burial of soldiers, and ended one of the letters by saying if she had the disposal of the Philippine Islands she would present them to any civilized nation who would take them off our hands. Some miscellaneous questions by Mrs. Wagner ended the program. Adjourned to meet next Monday with Mrs. Honkins at the residence of Dr. Bastar on Broadway.

### Spreads Like Wildfire.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years. You know why? Most diseases begin in disorders of stomach, liver, kidneys, bowels, blood and nerves. Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, rundown man or woman. Price 50 cents. Sold by Lowe & Witherspoon, druggists.

Mrs. Calvin Zimmerman, Milesburg, Pa., says, "As a speedy cure for coughs, colds, croup and sore throat One Minute Cough Cure is unequalled. It is pleasant for children to take, I heartily recommend it to mothers." It is the only harmless remedy that produces immediate results. It cures bronchitis, pneumonia, gripple and throat and lung diseases. It will prevent consumption. Geo. M. Bell & Co.

## AMERICAN CORN BREAD.

Maj. Gross, of Kentucky, Proposes to Feed Paris Exposition Visitors on Southern "Pone."

Maj. Simon Peter Gross, the Lexington man who will have charge of the American restaurant at the Paris exposition, is one of the most unusual characters in Kentucky. He is a native of Bavaria, where he was born about 50 years ago. He is said to have seen service in the German army, hence his title.

He came to Lexington about 25 years ago and opened a saloon. He was prosperous until there was a shooting affray in his place of business. At length he sold out his business and engaged

MAJ. SIMON PETER GROSS.  
(Will Supply Paris Fair Visitors with Kentucky Dinners.)

In the making and putting down of artificial stone pavements.

Maj. Gross was still engaged in this business when the world's fair began to be talked of in the newspapers. When he learned there was going to be a Kentucky building he imported leading Kentucky politicians, with all of whom he was on the best of terms, to secure for him the privilege of establishing a restaurant and bar in the Kentucky building, where Kentucky dishes and drinks could be secured. His energy and perseverance secured the concession, and he was so successful in his venture that he cleared above all expenses something over \$25,000.

The major proposes to make his American restaurant at Paris as much a feature of that show as was the Kentucky restaurant a feature of the world's fair. At Chicago he was unable to accommodate the vast crowds who wanted to be fed on Kentucky fare, and if he carries out his plans at the French capital the major will make the Europeans open their eyes.

He proposes to have jet-black negro waiters, negro cooks and to set the famous "Blue Grass" dinner, making a specialty of corn bread, which he will serve in all styles. He will take along one of the best corn bread cooks in America, whose business it will be to see that every piece of this kind of bread goes on the table just right. He will also have a noted negro chicken cook. It is well known that nobody can cook a chicken as well as a negro, and he will make use of this fact to have the most appetizing dishes prepared from this luscious fowl. Of course he will have all kinds of American dishes, but he proposes to make specialties of corn products and southern cooking.

Maj. Gross wants to make the restaurant "American" in all that the name implies, and he believes that when Europeans eat his corn bread and see how good and wholesome it is they will want to know more about it and will ultimately lay aside the hard, black bread of the continent and substitute the cheaper and healthier corn pone and "egg bread" of America.

## Smoke

Is a most disagreeable feature of a beautiful city and the question has been discussed and cussed in every manner, shape and form, but with very few satisfactory results. Last fall The Evening News had placed in its boiler Gaul's Smoke Consumer and Fuel Economizer and in recommending it to the public we do so with a full knowledge of the benefits to be derived. It consumes the soot, thus doing away with that disagreeable features and saves from 10 to 25 per cent in fuel which is one of the biggest items of interest to all users of coal.

We would respectfully invite all interested to call and examine and see for themselves the benefits we are receiving daily. Full particulars gladly given at The Evening News office.
